# Over-the-Range Microwave

professional series

# E30MH65QPS

#### PRODUCT DIMENSIONS

Height 17-9/16"
Width 29-7/8"
Depth 17-1/16"

#### **MORE EASY-TO-USE FEATURES**

#### **Second-Tier Rack**

Creates more space in your microwave, allowing you to heat more food at once.

**Automatic Settings** 

# **Signature Features**

**Automatic Cooking Options**Pre-programmed settings give you the

Pre-programmed settings give you the versatility to combine both microwave cooking and convection heat.

**One-Touch Options** 

One-touch options include Reheat, Add 30-Seconds, Popcorn and Defrost.

**Convection Cooking** 

Circulates hot air through your microwave to cook foods evenly.

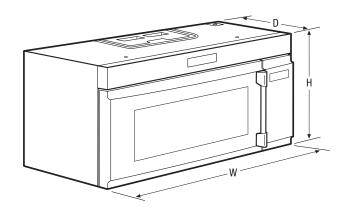

**Five-Speed Ventilation** 

Control the fan speed with the touch of a button to adjust the airflow based on your cooking needs.

#### 30" Over-the-Range Microwave Specifications

- Product Weight 69 Lbs.
- Voltage Rating -120V/60Hz/20 Amp
- Connected Load (kW Rating) @ 120 Volts = 1.65 kW (For use on adequately wired 120V, dedicated circuit having 2-wire service with a separate ground wire. Appliance must be grounded for safe operation.)
- Amps @ 120 Volts = 15 Amps
- · Always consult local and national electric codes.
- Grounded outlet should be located in cabinet above, with hole in base to route power cord. Carefully follow top template instructions for power cord clearance when installing beneath smooth, flat cabinets.
- Microwave's ventilation system is preset to recirculate air inside with no ducting system required. Exhausting air outside is optional, using either vertical or horizontal ducting system. (Refer to Ducted Option Specifications for outside ventilation.)
- For safe and proper installation, microwave MUST be mounted to BOTH a top cabinet AND a wall, and connected to at least one wall stud. Can NOT be installed in island or peninsula cabinet arrangements.
- Cabinet bottom MUST be level to insure proper installation
- Cabinet MUST be capable of supporting a total load of 150 lbs.
- Filler blocks recommended for installation when cabinet front hangs below recessed bottom shelf.
- Minimum distance of 30" required from cooking surface to bottom edge of top cabinet.
- Minimum distance of 66" required from floor to top of microwave.
- Opening between cabinets MUST be 30" wide and free of obstructions.
- Allow 25-1/2" minimum clearance for 90° door swing.

## **Ducted Option Specifications**

- For outside ventilation.
- Exhaust duct adapter supplied assembled for outside ventilation, designed to mate with standard 3-1/4" x 10" rectangular duct. If round duct required, rectangular-to-round transition adapter will be needed with 5"/6" diameter.
- For most efficient airflow exhaust, use a straight run or as few elbows as possible with maximum duct length of 3-1/4" x 10" rectangular or 5"/6" diameter round duct, not to exceed 120 equivalent feet.
- For horizontal installation, be sure to allow enough space between wall studs to accommodate exhaust.
- Refer to installation instructions on web for detailed duct preparation and converting exhaust vent blower system for exterior exhaust ventilation.

Note: For planning purposes only. Refer to Product Installation Guide on the web at electroluxicon.com for detailed instructions.

#### **Optional Accessories**

• 36" Filler Panel Kit - (PN# MWFILKTSS)
