

FSP-1011USBW

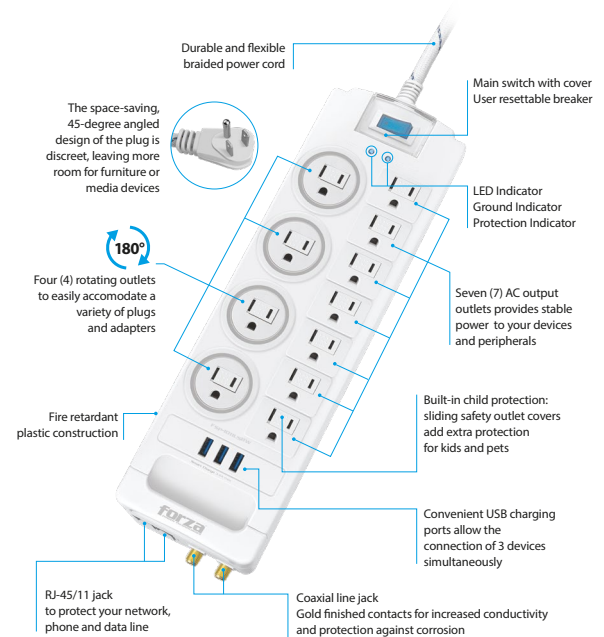

The Forza Surge Protector provides reliable protection to guard all your appliances, electronic equipment, and entertainment components from electrical surges and spikes.

Featuring seven standard outlets, and four rotating outlets especially designed to accommodate bulky plugs or adapters, this surge protector is versatile and practical. The built-in child safety covers seal off unused outlets, while the on/off switch is shielded by a clear protective lid to prevent accidental trigger or disconnection of the unit. Its three USB charging ports deliver optimal current output which conveniently keep tablets, smartphones and other rechargeable electronics always ready to use. In addition, it comes equipped with coaxial and RJ 11/45 connectors, making it the perfect addition to power and enhance the performance of your valuable investment in your home office, entertainment center, work or play station.

Highlights

- Grounds AC power through 11 surge-protected outlets
- Four 180° rotating outlets accommodate a variety of plugs and adapters
- Three USB ports smartly detect your device to provide the optimal charging current
- Durable and flexible braided power cord creates a stylish look without getting tangled
- Its low-profile flat plug fits easily in tight spaces like behind cabinets, desks or furniture, or anything close to the wall
- Cable management system keeps cords organized and safely out of the way
- New MOV (metal oxide varistor) technology – provides enhanced protection for electronic components against voltage spikes
- Coaxial, phone and data line jack protect multiple AV equipment from surges and brownouts associated with lightning or utility problems
- Keyholes for easy mounting to a wall, or under a cabinet or countertop

MPN	FSP-1011USBW
Input	
Voltage	110-220VAC
Max. current	15A at 110V 7A at 220V
Frequency	50/60Hz (autosensing)
AC plug type	NEMA 5-15P (with ground connection)
AC plug style	Right-angle, 45-degree plug
Output	
Outlet	NEMA 5-15R Eleven (11) with child protector Four (4) rotating
USB port	Three (3) 5VDC ports (3.4A max)
Watts	1750W
Surge protection	
Overload protection	Included
Surge suppression rating	1800J
Maximum spike current	37500A
Coaxial protection	1 in / 1 out
Network protection	RJ11, RJ45
Physical appearance	
Switch	Illuminated
Housing	Flame retardant plastic
Color	White
Cord length	5ft
AC cord gauge	14 AWG
AC cord jacket	Braided PET (polyethylene terephthalate)
Cable management	Included
Product dimensions (LxWxH)	13.1x3.9x17in
Product weight	1.8lb
Additional Information	
Certifications	NOM
Warranty	Lifetime
